

Peter's musical career started at the age of 12 when he got a small organ. Shortly after that, he bought his first synthesizer and started composing his own tracks. He got involved in several bands, but soon he realized his skills and talent would lead him to composing and producing music on his own. Influenced by such artists as Depeche Mode and Jean Michel Jarre, as well as the thriving Belgian club scene, Peter started making dance music.

Many will know Peter as one of the leading forces behind successful dance formation Lasgo, Ian Van Dahl, Annagrace, Pearl.... Beside those projects he's also famous for his remixes and all his club-projects like groovewatchers, John Luniz, and ofcourse the records under his own name.

These however are just a few of the many projects Peter contributes to. He has been working with many artists such as Des Mitchell, Dave McCullen, Johan Gielen, Barbara Tucker, Basto!, DjWard..... and to write tracks that are now known as classic club anthems.

He remixed artists like : Axwell, M.Y.N.C Project feat Roachford, Zornik, Delerium, Dizkodude, Kate Ryan, Atomic kitten, Aurora, Yoav etc....

On top of this, Peter's career as a DJ is taking off quickly. His DJ sets have set a standard for others to follow.

Peter is resident @ www.noxxantwerp.be

Both with remixes and with his own songs, Peter is determined to continue to surprise us with exciting dance tracks!

Also can you listen to his very own radioshow: MNM Dance, every friday from 23:00 till 01:00 on Belgium's national radio MNM....
